Dear Home Builder,

Ultimate Home Theater has been creating excitement with the latest in home entertainment. We are called upon by builders throughout San Antonio and the Hill Country region. We would love the opportunity to bid the wiring in your next home project.

We specialize in new home pre-wiring for any low voltage application, which can include, TV, telephone, data lines, surround sound systems, home theater, home automation, lighting control and intercom systems. We coordinate with builders and homeowners to assist with all low voltage wiring needs. The best way to maintain a homes market value is by equipping the home to keep pace with the ever-changing field of technology. Our pre-wire prices for standard cable and telephone are some of the most competitive in the industry.

We have been in business for more than a decade. We offer consultation on home audio, video, theater and telephone products from Sony, Russound, Control 4, (Control 4 can be installed with no inconvenience to the builder. It does not hold up closing) Polk, Earthquake, Yamaha and many more. We provide sales, delivery and installation, plus consumer education to eliminate the frustration of learning high-tech systems at a price less than larger chain retailers. We can install a variety of home technology systems to fill the needs and desires of your clients.

We are professional and affordable. Why grow up when Ultimate Home Theater has all the toys you want in entertainment? Give us a call today. You will be glad you did.

Sincerely,

James Schmidt / CEO
